To Whom It May Concern:

I highly recommend David Sevier to you for consideration for employment in your school district as a physical, health and drivers educator. I was fortunate enough to be his supervisor in both the academic and athletic fields through the 2014/2015 school year.

David's classroom management, interaction and rapport with the students is excellent. Transitions from one activity to another in the course of a class period were completed smoothly and effortlessly. His plans were well organized varied and innovative, keeping the attention of the students at all times. David showed excellent interaction with the students which helped contribute to an excellent atmosphere in all classes.

David was very receptive to both positive and negative feedback, with the desire to be taught different techniques to better his classroom experience. David's hunger to better himself as a teacher, enthusiasm to apply teaching strategies, management techniques and focus on the individual needs of the students is extraordinary.

David conducted himself in a professional and principled manner. His commitment and upbeat personality were refreshing throughout the year. As was his eagerness to learn and lack of fear towards seeking advice.

David was very involved in school life as a coach. Coaching the football, wrestling and baseball teams was a huge asset to our coaching staff. His presence as a coach and the relationships he formed with the athletes in such a short time encouraged more students to play for him. His skills of training the students on and off the field are an unrivaled talent.

I interviewed David for two head coaching positions. He was an outstanding candidate, making it through multiple interviewing process to the top three candidates and only falling short of experience on both occasions. His athletic credentials speak largely for themselves; he played two college sports and understands the importance of time management, responsibility and being a positive role model for young student athletes. His organization and preparation on and off the field is impeccable as is demonstrated in the head coaching packet he prepared.

Having taught and coached in an urban setting, and having done an excellent job, I feel that David Sevier would be a great benefit to the staff of any school district.

Sincerely,

*Preston Goroff
